5 - 8 work samples in which the moving image is the focus - be it filmed or animated, digital or analogue. All kinds of picture series (storyboards, flipbooks) and also other creative projects are welcome. Videos as MP4, Vimeo or YouTube links.

Why the UE?

Our way of communicating and thinking is characterised by digital, interactive and time-based media.

We, the University of Europe for Applied Sciences (UE), have become the first higher education institution in Germany to offer a combination of film and motion design, as we see the potential as a forward-thinking engine of our everyday life and behaviour.

In this practice-oriented programme you will learn the basic methods, concepts and techniques for the design of time-based media. The degree offers a wide range of creative possibilities including camera work and sound design via analogue stop-motion animation, CGI and 3D modelling, digital compositing, hybrid film and visual music.

Perspectives at the UE

A time-based and modern design programme prepares you for a career in various possible professions across the fields of film, animation, design, documentary, scenography and media art. Your work opportunities are as diverse as the media landscape itself, with professions including: freelancer for design agencies, film production companies, digital entertainment industry, art, advertising or in the media. It also prepares you for the opportunity to be a part of the staging of theatre and events.

In the predominantly project-oriented study, the programme makes you capable of dealing with current media technologies, from skills acquired for format-specific conception and realisation of moving images.

All advantages at a glance

- Professional equipment (photo studios, post-productions- and animation software, Mac pools as well as rental equipment)
- Internship or semester abroad at one of our partner universities
- Interdisciplinary studies
- Our ‚Foundation Diploma‘ gives you a unique opportunity to learn the basics of our Art & Design study programmes in just one semester plus improve your english to meet UE admission requirements.
- Practice-oriented teaching by experts
- Building an international network and contacts with our collaboration partners
- Support with applications and with job placement through our Career Center
- The programme is supported with UE scholarships
