## Why the UE?

Digitalization, globalization and an increasing demand for sustainability pose challenges for companies today. They are looking for qualified specialists and managers who can identify and implement innovative and future-oriented business models. In the full-time MBA programme at UE, University of Europe for Applied Sciences, you will be prepared for these challenges over the course of one year through practice-based teaching and interdisciplinary modules. Our excellent professors from science and business individually address your competence development and strengthen your professional profile for a successful career start. Whether your goal is to become a manager in an international company, an executive assistant or even create a local start-up – you will be equipped with the skills and confidence required to succeed in a variety of roles upon graduation.
